

The Democrat.

Thursday, May 13, 1875.

LOCAL DEPARTMENT.

Business dull—farmers busy.

Your June taxes can be paid now.

"Jam" without the "jim" is very good.

Marshal Ryan has commenced delivering his fine ice to his customers.

The May Musical Festival is blooming in Cincinnati.

Out-door courtship is now fashionable.

Charley Thum has improved the appearance of Commercial block.

"Spring fever" is good, but constitutional laziness is more appropriate.

This weather is some on the crops, if not "sum-mer."

The flowers are blooming—in the windows of the millinery stores.

A distinguished Boston professor charges that Boston women chew tobacco. Just think of that!

The next Sunday train will run to and from Cincinnati at reduced fare. If you want to go, get ready.

Ben Wade didn't want to be weighed in the balance against William Allen.

We had a most glorious rain on last Saturday night, which has made everything to bloom and blossom.

The Assessor has been around, and we are now ready to receive black backs on subscription.

We don't need any money, but the meat man, grocer and baker does demand it.

We have been "jim jamed," and are now consigned to everlasting neglect. How sad!

How apt some people are to measure their neighbor's corn in their own peck.

Warm weather has the inside track now, and that's who we'll bet our money on.

We have been waited upon by two Assessors this season, but we managed to get our wealth all on one blank.

No matter how many papers a man takes, the list is incomplete without his home paper.

If you haven't bought your straw hat yet, don't do it until you see Sturm's assortment.

The thermometer stood at 86 degs. on Saturday last. That will do for warm.

The Sheriff's farm residence could be very much improved in appearance by a coat of paint. Will the Commissioners donate?

Dwelling houses are needed in Eaton. It is a good sign, and our money men ought to take advantage of it.

The mosquito will soon tune his harp for the midnight serenade, he will also present his bill at the same time.

Don't undertake to joke with a jack-ass. He hasn't brains to appreciate it and is sure to kick at you maliciously for your good nature.

The cheapest way to make enemies is to go into a crowded barber shop on Saturday night, and get your hair cut.

Natty Stephens sold his celebrated racing horse, "Crazy Sam," for the sum of \$800. Mr. Elmore Todd, of Montgomery county, purchased him. Good bye, Sam!

"Pussillanimous hyena" is a good name for the person that is no respecter of private character. To call him a dog, would be an outrage on the canine race.

Van Pelt was once a quiet sort of a saloon keeper. He joined the crusaders and soon became a drunkard, a liar, and last a thief. Mr. Van Pelt is evidently ruined.

A Montana justice of the peace doesn't expunge any when he marries a couple. He says: "Arise, grab hands—hitched—six dollars!" And that's all there is to it.

It must have been a woman who compiled the table of figures to show that the average man who patronize the barber, spends for shaving in forty years the sum of \$4,600.67.

If Mr. Postmaster Neal was not the best natured man in town he would warm some of those boys who congregate in his office about mail time in the evening and cut up their hildaddy tricks. He would indeed.

Now is the time of the year for the patient right man to begin his perambulations through the country, and get farmers' names to contracts, which are afterwards converted into negotiable notes.

We need more Hotel accommodations in Eaton, and it is a great pity to our place that the Doty House was permitted to be closed. We hope there will be something done in this matter before the June term of Court commences.

As some of the late Doty House boarders have been obliged to accept "any port in a storm" for grub and repose, we'll just mention that Sheriff Townsend has several very excellent vacant rooms to let. Access easy, and terms moderate.

The lateness of the season will prevent considerable amount of tobacco from being planted in this county, that would have been put in had it been otherwise. Farmers are not willing to take the chances of the crop.

The travelling public will be glad to know that the Local Accommodation train has been put back to its old running time. Superintendent Williams deserves the thanks of the public for the prompt manner in which he has complied with their wants in this matter.

LARSEN NORMAN, an old farmer and citizen of Preble county, died at his residence, about six miles south-west of Eaton last week, after a short illness. Mr. Norman was a respectable and honest man, and will be missed in the circle of his acquaintance.

While at Columbus we met our old fellow-citizen, Judge GRAYSON, of the Supreme Court, who appears to be pleasantly situated, but hard at work. Also, his associate justice, Judge WHITE, upon both of whom the judicial ermine seems to rest easily.

The fellow who is butchering the locals for the REGISTER, reminds us of the story of the old hen that discovered a rainbow laid egg in her nest, placed there by a mischievous boy. Thinking that it was one of her own progeny, she cackled herself to death in fifteen minutes. Unless somebody finds another egg for this clucking rooster, he'll exhaust himself.

The weather, unfortunately young man, will soon be pleasant enough for you to beat the carpets. Some morning you will get up, and find your wife flying around the room with a handkerchief on her head, and a tack hammer in her hand and fire in her eye. Then you want to climb into your garments, drop out of the window and make tracks for to go fishing.

Buy a Home.

Every laboring poor man should buy himself a town lot—that that paid for and then work to add the necessary improvement. A little here and a little there will in due time produce you a home of your own, and place you out of the landlord's grasp. Remember that fifty dollars a year saved in rent, will in a very few years pay for your own home, and the money it costs you to move and shift about, without any loss of furniture and time, pay the interest of a few hundred dollar judgment against your property until you can gradually reduce it to nothing. You can all buy in that way—why do you not risk it? If you fail you are no worse off—if you succeed, as any careful man is sure to do, you have made a home and established equal to any other which will start you into business.

Very Sad!

As we passed over to the Court House, on Monday last, we observed Dennis Lewellen engaged on the public square removing the last vestiges of the ancient "Mound Builders." Seeing this beautiful relic of antiquity being defaced, we at once interposed an objection to this defacing the monuments of the dead, when the desecrator informed us that he was operating under the order of the Commissioners, as they supposed some valuable treasure might have been deposited there, which would enable them to refit the town clock and once more put it in motion. With this explanation we felt somewhat relieved, and said no more. Before going to press we have learned that one of the Commissioners had been on the ground, and expressed himself highly pleased with the prospect of success, as some charcoal and metal trinkets have already been found, and it was thought either gold or silver was near at hand, amply sufficient to refit the town clock and compensate for the work.

Home Manufacturers.

One of the greatest sources of wealth and prosperity to any community is its manufacturers. No town becomes a populous and prosperous city without manufacturing, and no town or city having extensive manufacturing fails to increase both in wealth and population, and hence it is the duty of every citizen that feels an interest in the welfare of his town and home, to patronize and encourage every enterprise of the kind that may locate in their midst. For instance, if you have a plow manufactory in your city, and you need that article, purchase it from your own shop—if you have a door and sash manufactory in your town, and you are building and need any of these articles, that is the place you should get them, even though it cost you a few cents more. Every dime that is spent to encourage and support these enterprises among us, is building up our home and its business, and increasing our wealth and population, and every dime that is paid out for them when manufactured elsewhere, is so much for that place and against the welfare and prosperity of our own mechanics. Therefore, we say to one and all, "patronize your own home manufactory," for such policy has built up and made rich all western towns, and if adhered to will do the same for Eaton.

We have received a very lengthy communication from a gentleman claiming to be a citizen of Lewisburg, which we decline publishing for the reason that we have never yet permitted our columns to be used for the purpose of attacking any religious denomination or sect. We believe in allowing every person to worship God according to the dictates of his own conscience, and whether a man prays standing or kneeling, or only gives lip service—whether he shouts, goes under water, or believes "once saved always saved," don't make any difference to us, so he is a good and honest citizen, we honor and respect him. Our paper is neither religious or anti-religious, but is published in the temporal interest of the people, besides we see no necessity of any one fretting their gizzards or tearing their shirts about the danger of this Church, or that one swallowing all the rest, together with our poor devils that don't belong to any. If the gentleman who signs his name to the communication is not a myth, (for we don't know him) and will turn his talent in another direction and other subjects, we will be pleased to accommodate him with the use of our columns.

SHERIFF'S SALE.

Sheriff's Sale.
(Case No. 267.)
